Delete Website Page

Edit Pages - Website pages outside of Access or go straight to <https://www.beacontechnology.com/admin/editor4.php?ct=pages> Click "DEL" on the far right and confirm.

The top menu containing links to these pages is in PHP as it interacts with the product menu and its caching. The file is located at /home/masterbeacon/public_html/template_toc_ul.php It should be edited with care.
